

## Look for this **INCLUSION STICKER** on local business doors or windows!

To view successful supported employment stories in the Walla Walla Valley, visit YouTube and search:

### Walla Walla 2016 Supported Employment

The inclusion sticker was developed by our local *Unity Team*. This team is comprised of Job Consultants, from multiple agencies, who specialize in placing people with developmental disabilities into community integrated employment.

Stickers are awarded to businesses which:

- Employ a person with a disability
- Participate in a trial job experience
- Participate in job tours and job shadowing

What's the third largest market segment in the United States? The answer might surprise you. It's not a particular race, gender, or age group. It's people with disabilities. The size of this population—54 million strong—surpasses Hispanics, African Americans and Asian Americans, as well as Generation X and teens. Add in their families, friends, and associates, and you get a trillion dollars in purchasing power.
